

And try to groove

I stand tall and strong

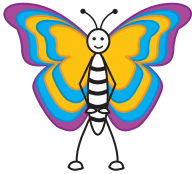

I travel the world big and round

I shake & Move

From the earth under my feet...
stomp stomp to the sky in the air...stretch

I blossom and stand strong

Sun Salutation

To placing my hands on the ground,
and walk my hands forward and stop

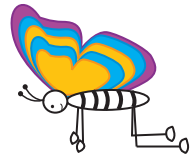

Then hop up and say 'rahh'

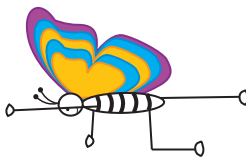

Now I am a triangle & wriggle
my bottom and rock

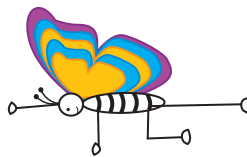

Now I curl up as small as a bug

I'm an elephant wise and strong

Other side

Now I'm Stretching my trunk
lean and long
