

Level Two Theraplay® and Marschak Interaction Method

Special Features of Level Two Include:

- Video of actual cases will be utilized to enhance your learning
- Each module will include at least one case presentation
- Live supervision opportunities open to every registrant
- Participants will practice activities, including modifications for trauma

Module #1

Marschak Interaction Method (MIM) Skill Development

This module will focus on the MIM to improve your comfort and skill in administering and interpreting this powerful assessment.

Learning Objectives:

- Administer and analyze the MIM at an intermediate skill level
- Develop skills in the use of the MIM for treatment planning

Module #3

Adapting Theraplay to Work with Trauma and Complex Families

If you work with children who have been traumatized, have attachment disorders or complex families we highly recommend that you attend this program. It will help you sensitively adapt Theraplay to work with this population.

Learning Objectives:

- Describe the concept of complex trauma
- Assess when to use Theraplay in the overall treatment course of a client
- Describe three modifications to Theraplay to meet the needs of traumatized children
- Describe how to adapt treatment to meet the needs of parents who themselves may be traumatized

Module #2

Building Your Theraplay Skills

This module will help improve the breadth of your Theraplay skill set to bring your Theraplay work to a higher level.

Learning Objectives:

- Demonstrate how to use a wider range of Theraplay activities and techniques
- Describe how to adapt Theraplay work with a wider range of populations, such as children with autism and older children
- Describe strategies for dealing with resistant parents and children

We recommend that registrants have at least 6 months experience utilizing Theraplay in their work before attending this training.

Register for all three days of these trainings or for the modules of your choice. Completion of all three days is required for certification.
